

## Blockchain & Asset Support List

The following blockchains are supported for wallet screening, transaction monitoring, and risk assessment. Coverage Type indicates the depth of historical data and attribution available for the specific network.

Total protocols supported: 37

| BLOCKCHAIN          | ASSET SYMBOL | COVERAGE TYPE |
|---------------------|--------------|---------------|
| Bitcoin             | BTC          | FULL          |
